SUMMARY

I am currently expanding my skill set and eagerly seeking internship opportunities. With industry-based experience under my belt, I am confident in my ability to tackle large repositories. My expertise lies in building dynamic websites utilizing the MERN Stack, demonstrating proficiency in these cutting-edge technologies. Furthermore, I excel in designing and implementing responsive layouts to guarantee seamless compatibility across various devices. I am enthusiastic about applying and further honing my skills in a dynamic internship environment.

- - React.js
- - Node.js
- - MongoDB
- - Flutter
- - Redux
- -Golang
- -Python

CERTIFICATIONS

- Coursea C++ Course
- IIT Bombay CS Foundation
- CS50 Harvard university.

INTERESTS

- Football
- Geopolitics

PROFESSIONAL EXPERIENCE

Web developer:-Intern (October 2023 - December 2023)

|Bussiness Solutions - I had a good experience. The company made me industry-ready and also helped me develop new skills during my time there.Also made design and full-stack websites during the working period

Mobile App Developer Intern (Nov 2024 -Jun 2025)

Ridvig Technologies - I was a developer at Ridvig, where I developed an app for people to book rides from one place to another. I also worked on the backend using Django and integrated it with the frontend.

Full Stack Developer: Intern (June 2024 - Dec 2024), Junior Developer (Dec 2024 - Present)

SkillsPe Technologies Pvt Ltd.
I started as a Full Stack Intern at SkillsPe, where I developed the SkillsPe app using Flutter and created the company website. Both the app and the website are live. I am currently working on the admin console and transitioning into a Junior Developer role.

PROJECTS

Here's the updated version with direct links included:

1. Baggy Website: Developed a fully responsive website for selling bags, featuring user authentication for Sign Up and Sign In. [View Live](https://stirring-tulumba-d93483.netlify.app/)

2. Amazon Homepage Clone: Built a clone of the Amazon homepage.

3. DALL·E Photo AI Website: Created a website that utilizes the OpenAI API to generate and display images.

4. SkillsPe Website: Developed the entire SkillsPe website using Next.js. [View Live](https://www.skillspe.com/)

5. SkillsPe Flutter App: Built the SkillsPe mobile app, which is now live on both the App Store and Google Play Store:
   - [Google Play Store](https://play.google.com/store/apps/details?id=com.application.skillspe&pli=1)
   - [App Store](https://apps.apple.com/in/app/skillspe/id6572280569)
