

JITENDRA CHOUDHARY

Full-Stack Developer

Pune, Maharashtra | +91 9561222822 | jitendrajat6397@gmail.com

Portfolio: jitendra1.netlify.app | GitHub: github.com/jitendravee | LinkedIn: linkedin.com/in/jitendra-choudhary-525504252

SUMMARY

Full-stack developer with 2+ years of experience designing, building, and shipping production software at startups. Proficient across the entire stack — from Flutter and Next.js on the frontend to Node.js, Django, and Firebase on the backend. Shipped live applications to the App Store and Google Play. Experienced in owning features end-to-end: architecture, development, integration, and deployment. Seeking an SDE role to solve complex, real-world problems at scale.

PROFESSIONAL EXPERIENCE

Twigg (Aadyantax Technologies Pvt. Ltd.)

Full-Stack Developer

February 2026 – Present | Pune, Maharashtra

Twigg is a personal finance app that consolidates bank accounts, investments, insurance, and loans into one secure view — built on RBI-regulated Account Aggregator infrastructure with an AI financial assistant.

- Building full-stack features for the Twigg One finance platform across Flutter mobile and web
- Working on account aggregator integrations, secure data flows, and real-time financial dashboards
- Contributing to AI-powered spending insights, investment tracking, and personalised money guidance
- Collaborating with core team on product architecture, API design, and deployment pipelines

Rimigo

Full-Stack Developer

November 2025 – February 2026 | Remote

Rimigo is an AI-powered travel platform that generates personalised itineraries, recommends hotels, and curates local experiences — making end-to-end vacation planning effortless.

- Developed full-stack features for Rimigo's AI-driven travel planning web and mobile platform
- Integrated AI itinerary generation flows, hotel recommendation APIs, and curated experience modules
- Handled Flutter frontend state management, REST API integration, and deployment workflows
- Contributed to UX improvements and performance optimisations across the platform

SkillsPe Technologies Pvt. Ltd.

Full-Stack Developer (Intern: Jun 2024 – Dec 2024 | Junior Developer: Dec 2024 – Nov 2025)

June 2024 – November 2025 | Pune, Maharashtra

SkillsPe is a skill-monetisation platform where users challenge friends, earn rewards, and turn their skills into real income — live on App Store and Google Play.

- Built the complete SkillsPe website from scratch using Next.js — live at skillspe.com
- Developed the SkillsPe Flutter mobile app end-to-end — published on App Store and Google Play Store
- Integrated UPI payments, secure authentication, deep linking, and real-time analytics
- Promoted to Junior Developer within 6 months — built admin console and owned product features end-to-end

Ridvig Technologies

Full-Stack Developer Intern

November 2024 – June 2025 | Remote

Ridvig is a mobility startup building ride-booking solutions for point-to-point travel.

- Built the ride-booking Flutter app — full UI, state management, and end-to-end booking flows
- Developed and integrated a Django REST backend for ride matching, authentication, and real-time location tracking

Bussiness Solutions

Web Developer Intern

October 2023 – December 2023 | Pune, Maharashtra

A web and digital solutions company delivering full-stack products for businesses.

- Built responsive full-stack websites for clients covering design, development, and production deployment
- Handled client requirements, iterative feedback, and on-time delivery

PROJECTS

Twigg One Flutter · Account Aggregator · AI · Finance · Full-Stack

Personal finance app that brings bank accounts, investments, insurance, and loans into one secure view via RBI-regulated Account Aggregator infrastructure. Features AI-powered spending insights, investment tracking, behaviour challenges, and an unbiased AI money assistant.

App Store: apps.apple.com/in/app/twigg-one/id6758598241

Play Store: play.google.com/store/apps/details?id=com.aadyantx.twigg

Rimigo Flutter · AI Itineraries · Travel · REST APIs · Full-Stack

AI-powered travel platform that generates personalised itineraries, recommends hotels, and curates local experiences — making end-to-end vacation planning effortless. Contributed full-stack features across web and mobile, including AI itinerary flows and hotel integrations.

rimigo.com

SkillsPe App Flutter · Next.js · Firebase · UPI · Deep Linking · Real-time Analytics

Built the complete Flutter mobile app and Next.js web platform for SkillsPe Technologies end-to-end. Handled the full stack: UI, state management, backend integration, UPI payment flows, authentication, and real-time analytics. Both platforms are live in production.

App Store: apps.apple.com/in/app/skillspe/id6572280569
